PRO TIPS

Measure by Weight

For accurate macros, always use a kitchen scale. Volume measurements (cups, tablespoons) can vary significantly.

Protein Powder Tips

Different protein powders absorb liquid differently. If your batter is too thick, add liquid 1 tablespoon at a time. If too thin, add a bit more flour.

Storage

Store at room temperature for 2-3 days, refrigerate for up to 1 week, or freeze for up to 3 months. Thaw overnight in the fridge.

Meal Prep

Make a double batch on Sunday for the week ahead. Portion into containers for grab-and-go convenience.
